Overall (Open Ended) (23 comments)

Q: What aspects of the course were most useful for your learning?

- 1 The way he would summarize what we had been learning about for the week
- 2 You used class time very effectively by recapping and reviewing the material we learned in the lecture. I liked how you kept it relevant by bringing up recent news stories and cases

- 3 The organization of discussion class-time was very helpful in keeping my mind in one spot. I loved Patrick's conversations with us, as it really helped me connect course content to real life.
- 4 I thought that forcing us to discuss with classmates was extremely helpful, even though i know most people don't necessarily enjoy it I really felt like talking it out with other people made me grasp concepts more
- 5 Paterick alone was the most useful for my learning. He provided information about the course in a new perspective, with differing scenarios, and offered so much support to all students.
- 6 he went through confusing topics and gave time for questions
- 7 This discussion was comfortable and i felt like i could participate. Patrick cares a lot about how the students are doing and doing things to help if they don't understand.
- 8 I never felt that we were ever not using time in the best way possible. I feel the discussions and class itself was very benefits and I learned every single day in it. He was very good at explaining things more clear and helping us fully understand it.

Q: When this class is taught again, what changes would you suggest?

- 1 For example problems for what we would see on exam to make sure we are fully understanding the concepts
- 2 I would focus more on guiding our exploration of examples cases rather than just giving them to us and letting us tackle them
- 3 No changes!
- 4 make discussion required.. as nice as the extra credit points were I felt like I needed to be more motivated to go to discussion, especially since this is a class taken by mostly freshman
- 5 i would not suggest many changes, this class kept me engaged and interested the whole time
- 6 n/a
- 7 None!
- 8 I would not change anything.

Q: What else would you like the instructor to know about your experience in this course?

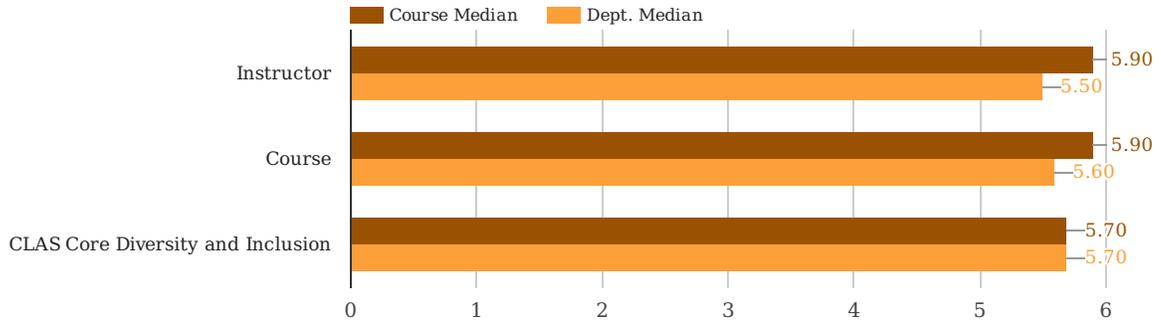

- 1 You made this topic very interesting to learn about and you were very willing to help explain something in a different way if I was confused
- 2 I loved having Patrick as a TA. He was professional, clear, informative, fun, and friendly!
- 3 you so clearly cared a lot about this course and your students and you were a great TA
- 4 this course has been my all time favorite class. It is difficult, but challenging in a good way. Paterick and Mr. Ryfe are both brilliant teachers who have positively impacted me by making me think differently about media, news, and the law in general. This class has been such a positive addition to my life even though it is considered just a gen ed. I wish all my classes were taught like this class.
- 5 i really appreciate his willingness to have conversations he wanted to hear our opinions and would not let anyone be judged
- 6 Thank you for being a wonderful teacher and person. I won't forget this course!!
- 7 My experience in this course was very beneficial. I felt that I was truly cared about. At the beginning of most classes we would do a check in on how we are feeling and managing our emotions then based on the results of that the class would be structured in various ways. His priority was making sure we understood the material entirely, along with out mental health in general. I enjoyed this discussion course very much. It was very engaging and I learned a lot.

Overall (Open Ended) (32 comments)

Q: What aspects of the course were most useful for your learning?

- 1 I can't express the amount of thanks I have for Johnson putting his notes on ICON. They were absolutely invaluable as I did get sick over the semester and was unable to attend a few classes. Also as a supplement to my notes, it help round out my understanding of the course and actually helped. Also, love all the extra credit.
- 2 I loved how we went more in-depth with what we learned in lecture. Johnson helped to better break down the big terms and better

explain it in a way for us to understand.

- 3 This discussion course is the only reason I was successful in this class. For someone with no background or interest in law, it is very challenging. Patrick's notes were without a doubt the most helpful for my learning. With the lecture style of Dr. Ryfe, it is hard to get used to listening and writing basically every word. Being able to ask questions in discussion (outside of a huge lecture hall) was very helpful. These concepts are best learned when you apply them and talking through the terms was a life saver for me!
- 4 Everything about the discussion sections were really helpful for my learning, I also really enjoyed the free writes!
- 5 discussion section was overall very helpful. The Extra Credit really helped me as well as going over study guides and sample cases.
- 6 I honestly could just say Patrick himself! But seriously, his notes that he posted throughout the semester really helped me conceptualize the ideas and topics we were going over in class. I think just how prompt he was in putting things on ICON for our benefit made him a really beneficial teacher!
- 7 I liked how patrick always kept the discussion fun and exciting
- 8 Discussions helped me understand everything so much better.
- 9 I found that in discussion going over the key details was very beneficial. Also, having the opportunity to ask questions helped me out.
- 10 I loved Patrick. He was one of the best TA's I've had at Ulowa. His discussions are engaging, He's not afraid to break the ice for us and put us in groups we've never been in before. He always checks in with our mental health before every discussion begins. He is extremely helpful and always answers a question in the best way possible. He really made me enjoy the class.
- 11 Honestly, everything from the review sessions before exams to the usual powerpoints about the week's topic. Patrick really does an amazing job of keeping me engaged and explaining topics for better comprehension.

Q: When this class is taught again, what changes would you suggest?

- 1 There is nothing I can think of.
- 2 I think this class went smoothly and it is one of the many discussions that I actually enjoyed attending so I don't think anything needs to change.
- 3 I would encourage each TA to take notes for their students as Patrick did. Each term I was ever confused about, I could find in his notes with detail. I still took my own notes and went to lecture, having those notes never discouraged me from going to lecture. The combination of both attendance and the notes reference guided me through the exams.
- 4 Nothing at all.
- 5 Nothing!
- 6 I had mixed feelings about the group work we had to do... i know this can be individualized from class to class but i think you should keep doing the email bio thing that you made us do in the beginning to get our preferences about group work and how we feel about talking in class, etc.
- 7 i would just suggest trying to explain material a little bit more clearly
- 8 nothing
- 9 NO SUGGESTIONS
- 10 Honestly, I would not change anything. The discussion as it is now is perfect. We get our questions answered, we get a review, and we also are able to do a few practice problems. He is super helpful in the week leading up the exam and truly wants us to do our best.
- 11 Can't think of any.

Q: What else would you like the instructor to know about your experience in this course?

- 1 One thing that I like a lot is how Johnson never pushed us or let us know his own personal views on his political stance. I feel that if a teacher/professor does that, they have failed at their job. Instead, Johnson gave us aspects from both sides and let us students have a more open mind instead of directing us towards one specific side. I really enjoyed Johnson as a teacher and we need more like him.
- 2 N/A
- 3 You made such a positive impact on me throughout this semester, I really appreciate it!
- 4 Best TA ever thank you!
- 5 He is literally the best and needs the fattest raise. Sometimes it is hard to want to go to discussion, especially when you aren't really required to go, but Patrick was so funny and such a good person that I thought the class always ended up going by really fast because it just felt like easy conversation. Also i know that if i ever needed a safe place for anything, I could go to him and he would truly care! I think a lot of teachers say that but he is one of the teachers where i actually felt like he meant it.
- 6 i loved how patrick always came to discussion in a great mood and always kept us anxious to learn
- 7 Patrick was the greatest TA i have ever had. He kept things fun while also staying professional at all times. I feel I can truly go to him if I

ever need any help. He is truly one of the smartest and nicest people I have ever met. I wish Patrick nothing but success in the future.

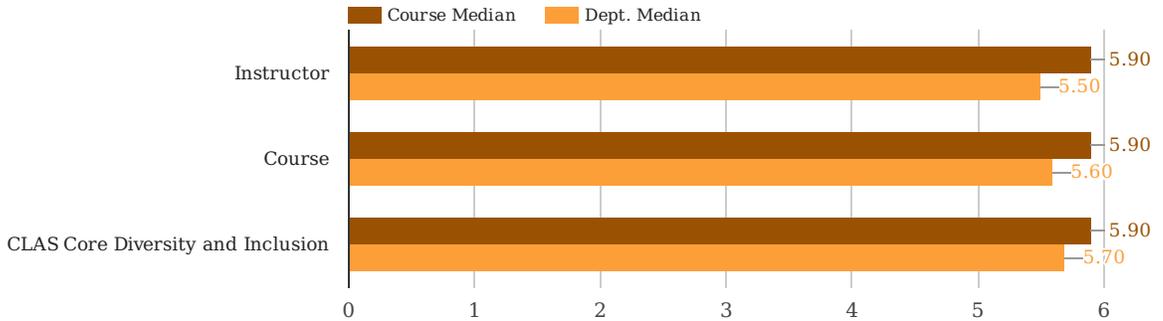

-
- 8 For the first time at Iowa, Patrick made me truly feel like I had a staff member that actually cared about me. Beyond course work, Patrick made sure that each student was doing okay when they got to discussion. While this discussion was optional, I always made sure I was there because I would be in a good mood after going because of Patrick. He is the best teacher I have ever had.
-
- 9 Thank you for a great semester!
-
- 10 Your notes were super helpful if I wasn't able to write everything down in class.

Q: What aspects of the course were most useful for your learning?

- 1 Patrick did a great job at building off of the work done by Ryfe. When Ryfe lacked in explanation, Patrick was able to help students understand topics that weren't clear before. Likewise, I liked that we were given extra credit when coming to class and answering questions. It allowed me to want to come to discuss more and actually grasp the concepts.
- 2 Patrick's teaching style was so helpful, he is super knowledgeable about law and the first amendment and really helped with

understanding difficult concepts in the class.

3 Going to lecture and discussion

4 The entire discussion section as a whole was very beneficial, it gave me a great opportunity to reaffirm my understanding of the material and earn extra credit.

5 The notes Patrick provided for us, the PowerPoints in discussion going over material in more depth being made available to us, and the stress checks

Q: When this class is taught again, what changes would you suggest?

1 n/a

2 Patrick be the teacher of lecture.

3 none

4 Nothing, this class is perfect in my opinion. It's not over-demanding but still forces me to think and listen, which is a hard thing to balance.

5 spending some more time on learning materials and a little less time on personal stories could be slightly beneficial

Q: What else would you like the instructor to know about your experience in this course?

1 I loved how much Patrick seemed to care about us as students. He would ask to see how we were feeling every day and teach differently based on how stressed we all collectively were. Likewise, he made sure that we were all prepared for our exams ahead of time.

2 Patrick thank you for everything you saved me and my classmates from failing the class.

3 none

4 You are an incredible instructor who consistently goes above and beyond what's required in order to help students! For example, you took extremely comprehensive notes during lectures which was a tremendous help for me when it came time to study for exams. Your hard work and positive attitude don't go unnoticed. Thank you for all that you do!

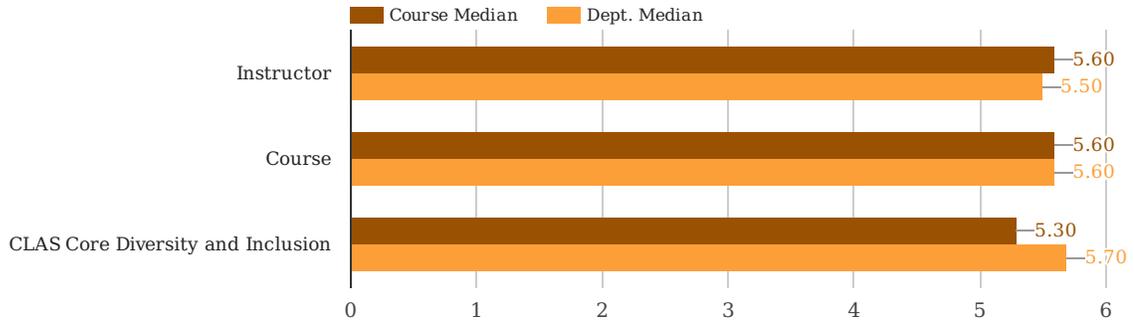

5 I LOVED this class. You are one of my favorite TAs I've ever had, and I so appreciate the passion you have for teaching. You made all of us feel empowered and welcomed in your class and I'm so thankful

Q: What aspects of the course were most useful for your learning?

- 1 The hands-on exercises were super useful. Nothing felt like busywork with Patrick, as I've experienced in so many classes before. The learning environment also felt incredibly welcoming and open.
- 2 Patrick
- 3 The feedback was very helpful and I really enjoyed the teaching style!
- 4 The most useful aspects were the 1on1 meetings to check in and get hands on feedback from everything. Also any workshop dates were super helpful to get feedback and help on anything in class.
- 5 In-class participation activities and discussions. I liked talking with new classmates and hearing their thoughts and ideas.
- 6 When the questions were answered.

Q: When this class is taught again, what changes would you suggest?

- 1 N/A
- 2 None
- 3 n/a
- 4 None.
- 5 Spend more time dissecting writing from professionals.

6 Choose a different TA

Q: What else would you like the instructor to know about your experience in this course?

1 Loved the class!

2 Patrick is the gold standard for educators, always helps everybody and really does genuinely care. I loved having Patrick as my teacher.

3 Best TA I've had all of my time at Iowa

4 Patrick is the best professor I have ever had in my life, and it is not even close. This was the most difficult 3-4 months in my life and Patrick made me feel wanted, comfortable, and important when I didn't feel that a lot. He is the most sincere and caring professor I have ever met. you will not find a professor that cares more about their students success in the classroom and in life. He is the definition of a role model. Give him whatever he wants.

5 This course built my confidence as a writer and I am very thankful for the support and encouragement.

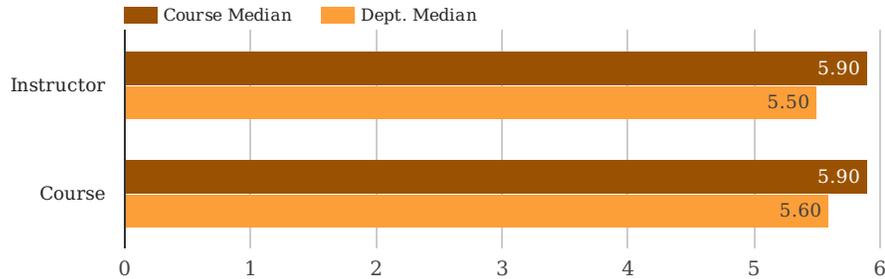

6 Very nice person, nice personality, but lacks of sophistication under the limit of his authority. Tried to be helpful to students who need help but sometimes it did not.

Journalistic Reporting and Writing (Fall 2021)

Overall (Open Ended) (9 comments)

Q: What aspects of the course were most useful for your learning?

- 1 I appreciate how thorough Patrick was throughout the semester with everything he taught us. From the weekly assignments to reviewing lecture material, I'm coming out of the class much more confident and comfortable in my writing ability than before. I also found Patrick's anecdotes really thoughtful and interesting in the wider conversation of what was being taught as they served the function of giving insight into real world scenarios where our journalistic ability may be used. Finally, I really appreciated how easy it was to reach Patrick by email, as I had a lot of questions throughout the semester. Patrick was really great with responding quickly with the information I needed.
- 2 I liked how Patrick, made us get up, walk around, talk to other people and a funny funky form of speed dating. He used all of these quirky but fun aspects that were interactive for us to learn and flush out ideas. I am a better thinker because of these activities and a better writer because of asking more questions and connecting more dots. I liked how in depth Patrick was when explaining things for everything: his teaching style; his expectations; how he grades. Nothing was left out or misconstrued. He was such an in depth grader that he made it really clear what I missed points on what I can improve but what I also did well on.
- 3 Patrick's passion for journalistic writing comes through which makes it such an enjoyable subject to learn about. He cares deeply for the success of his students. Whenever I had a question or needed help, he responded with compassion and useful comments. My writing is 100% better after being in Patrick's class.

Q: When this class is taught again, what changes would you suggest?

- 1 My biggest gripe with the class was the weekly assignments, although I recognize that Patrick wasn't the one who set them up. So I appreciate that Patrick would sometimes modify class work to better fit what we were doing, or sometimes simplifying it to better play into our knowledge and ability of said thing. Another, though minor, problem I had was that sometimes Patrick's anecdotes could get off topic and a bit long. I concede that they were fun, so I would suggest to maybe making them a bit shorter so the class can focus on

finishing work faster.

2 This isn't helpful but probably nothing. I looked forward to this class every week.

3 Nothing!

Q: What else would you like the instructor to know about your experience in this course?

1 Overall, I had a great time in the class thanks to Patrick, and I feel likely I've improved exponentially over the course of the semester.

2 Patrick is arguably my favorite TA, if not he is my favorite. He wants his students to learn but he doesn't sugar coat anything. He prepares us for the real world and we still have years of schooling left. But that is so great because we get a jump on things early, or at least certainly not behind. He is very passionate about what he does and that comes across in his teaching and grading. He understands his students and what is best for them or at least the majority. He may occasionally change what we accomplish in class but it is the same objective and cover the same goals. I could write a novel on Patrick and how great he is. He is great TA who is kind and compassionate, but the thing that is rare is that he communicates this while being real with us. Again going back to he doesn't soften anything for us. It's great because I know every grade I got, I earned and put in that effort. Nothing is curved or generously given to me. Everything is fair, and he is fair. I also appreciated how he got grades turned back around in a timely matter. Patrick was always helpful during office hours and really helpful and patient when I sent him a lot of emails. Because Patrick makes everything clear on how he teaches and his views on journalism I felt comfortable not only going to ask him about the world of journalism, but I know he would give me a straight-forward, truthful answer. I was very appreciative of that. There was not one minute of the day where I felt like my time was wasted. I also feel like this was my first experience with a TA who never once showed that they only care about themselves in a sense of teaching this class would only advance themselves by getting paid or on to that next step in their career. Maybe that is because I am just starting to get into upper level courses as supposed to GenEds. Patrick, still shared stuff like that with us but it was more in passing in a natural conversation topic. (again he is very open about himself and I really appreciated that because you are getting the truth) At all times Patrick showed that he not only cared for the well being—including mental health, not just pertaining to this class—but the accomplishments of his students, provided we put in the work. He would even talk about background information about other journalistic concepts that on the surface may not be related to lecture or the topic but after explaining how it connects it gives me more knowledge and to help elevate my writing. Okay, I convinced myself. He is my favorite TA and possibly better than any of any professor I had here or a teacher I had in grade school, and I have been blessed to have some great teachers, and great educators in my schooling since elementary school. Truthfully, Patrick may not be for everyone, but he is a perfect fit for that student who wants that constructive criticism, who wants the encouragement, that challenge to get better. He is someone who I can ever want and could hope for in an educator.

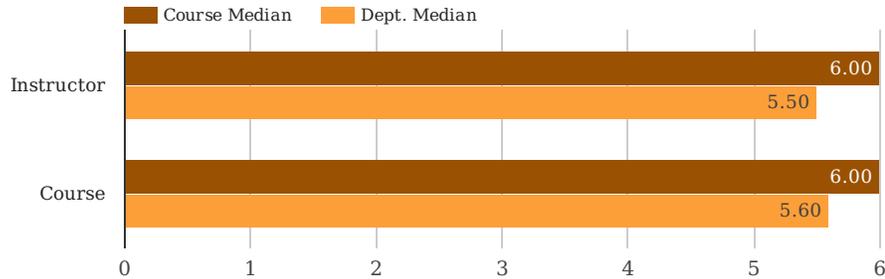

3 Nothing! I loved this class:)
