Overall (Open Ended) (26 comments)

Q: What aspects of the course were most useful for your learning?

- 1 the positive environment that was created in the class was very helpful
- 2 Mr. Johnson's teaching style made for one of the most amazing and supportive classroom environments I've experienced while at the University of Iowa. I think more professors need to take notes on how he teaches his classes. His style of teaching challenged me as a student while also making me feel supported. He prioritized our mental health and actually cared about what we were dealing with outside of school. Overall I was very happy with this course.
- 3 Our in-class discussions and readings applied well to the assignments and I enjoyed them.
- 4 Have large group discussion in class was a nice way to see others perspectives, the presentations right at the end to get feedback and advice from peers was genius, having us work with students from Syracuse University was such a nice way to have us learn to work with others online and navigate long-distance communication.
- 5 I really enjoyed class discussion. It was very simple but it is what I feel like I got the most out of, and it very much peaked my curiosity about class subjects.
- 6 I absolutely loved how Patrick made the assignments all build up to the final project. I'm still working on my final project now, but having already done most of the work for it, it's really not taking me very long to get it finished. This has been so helpful for me and I'm sure everyone else in the class, and I'm very appreciative for that.
- 7 From the very first day of class the professor ensured we all agree on the environment of the class. We promised to create and continue a respectful and open conversations throughout the semester. The genuine conversations we had after reading materials, was the most impactful part of the course.
- 8 Everything. I loved the course materials, papers, and assignments. I took a lot of great knowledge away from this class.
- 9 Patrick was extremely organized. I always knew what exactly was expected of me, and if something was unclear he would help you understand in any way possible.

Q: When this class is taught again, what changes would you suggest?

- 1 N/A
- 2 I wouldn't change anything about this course.
- 3 Make things due at midnight the day before with a 12 hour grace period. It would have kicked me in the pants to start working on assignments earlier.
- 4 I genuinely have no suggestions for this course - which is rare for me. I felt all class time was used well and all activities and assignments where relevant.
- 5 I honestly really enjoyed this class and the assignments in it. I know the collaborations with the Syracuse students were a new assignment and idea, so the only thing I can think of would be is to make sure both classes are on the same page about expectations and due dates!
- 6 Patrick has a way with students unlike any other instructor I've experienced. I have a had time picturing this class without him!
- 7 Nothing. I truly enjoyed every second of this class and I can not wait to apply my learning to my life.
- 8 Nothing!

Q: What else would you like the instructor to know about your experience in this course?

- 1 best class I've taken at Iowa so far!
- 2 Thank you so much for teaching this course the way you did. Genuinely one of my favorite classes I have ever taken.
- 3 I loved having Patrick as a teacher. He was the best teacher I had all semester, and truthfully in a while here at Iowa. The class was extremely interesting and our class discussions, as well as, the assignments were very informative and allowed me to grow as a person. I would take this course every semester if I could.

- 4 He made this class enjoyable, I looked forward to class every time because of how happy he was to teach. His energy and understanding made this one of the best classes I've ever had at this university.

- 5 Patrick is the best teacher I've had through my college experience. I felt cared for, listened to, and that I had someone rooting for my success.

- 6 Patrick - I loved having you in class again! You can tell that you genuinely care about each of us as people and not just making sure we get an A so it reflects well on you - you care about our learning and that we make good choices in our everyday lives. This is also reflected in the thoughtful feedback you consistently give us on our assignments. You are an amazing teacher and I'm grateful I had to opportunity to spend a cumulative two semesters with you throughout my undergrad career. Thank you!

- 7 This class was the only one I genuinely did not want to miss. Not just because the topics discussed in class were intriguing but because you are a wonderful instructor.

- 8 I not only enjoyed this course but Patrick as a professor. I have never had a more sincere teacher in all of my four years at Iowa and I wish I could take all of the classes that he teaches. He truly considers and seeks his students opinions, emotions, and presence as a whole. He also values his students mental health and overall wellbeing. He is a perfect example of an amazing person and professor!

- 9 This class made me feel seen and heard. Patrick does an incredible job creating space for all students to feel welcomed in the classroom. As a student I feel I got to know him as a person, which is rare in a professor. I felt he genuinely cared about my wellbeing. This class also really resembled a real workplace job- allowing us to miss class when it was necessary, and working with us on deadlines to create realistic timelines that worked for everyone. Patrick is one of the best professors I have had at the University of Iowa, and I think there is a lot that other professors in the school of journalism could learn from.
